Minor Post Procedure Instructions:

1. Keep area clean and dry. If there is a dressing/tape/bandaid in place, keep in place until next office visit. If needed, you may add additional gauze/bandaid on top of dressing. Should the edges curl up, please trim edges with a small scissor, like a cuticula scissor. Do not remove dressing.
2. If there is no dressing/bandaid : Apply triple antibiotic ointment (Bacitracin or Neosporin) to area two times daily.
3. Do not submerge in water for two weeks. You may shower but avoid water directly onto wound. Shower from the chest down only.
4. Expect some swelling and redness for the next day or two. Notify the office for any sudden large increase in swelling or increase in pain, drainage or bleeding from area.
5. You may apply ice intermittently to reduce discomfort and aid in swelling.
6. Apply ice for only 20 minute increments at a time, per hour.
7. Call the office with any questions or concerns: 949-706-3100
8. Call the office to schedule a follow up appointment, if needed: 949-706-3100
